

ROC-X

VTOL Precision Strike Missile

Where Courage Meets Technology™

ROC-X

VTOL Precision Strike Missile

General

ROC-X is a hand-launched VTOL (vertical takeoff & landing) precision strike missile, which brings new attack capabilities to the troops, significantly improving the unit's lethality

Operational Advantages

- Accurate - 1 m CEP
- Tactical Range - up to 10 km
- Guidance - Electro-Optical and GPS
- Launched by hand (launcher free)
- Abort Option/Automatic return and landing
- Fast engagement and high maneuverability
- Stealth Operation (low voice and thermal signature)
- Automatic End-Game (after operator lock on target)
- Lethal

Hand-Launched ISR/Attack

Parameter type	Specification
Speed	0 (hovering) – 80 m/s
Warhead	2 kg
Fuse	Impact / Proximity
Size	length: 1 m 0.8 m wingspan
Endurance	20 Min.
Flight modes	Manual/Fully automatic
Positive Target Identification	By operator, while hovering at any desired range manually
Abort Option	Automatic return and landing
Day and Night	Field changeable
Weight	6.8 kg
